

Environmental policy

1. Our company is engaged in manufacturing tools molded parts with respect to the environment.

2. Being aware of the responsibility to preserve the environment for our children and future generations, we will implement and improve the ISO 14001 environmental management system.

3. In order to minimize our impact on the environment of prevention, we commit to:
 - compliance with applicable laws and other legislative requirements,

 - continual improvement and prevention of environmental pollution,

 - use of easily degradable and thus environmentally friendly means in the production process,

 - motivation of employees, business partners and the public to respect environmental protection.

4. Environmental policy is a commitment of all our employees.
